Max Valentier, who commanded the submarine boat that torpedoed the Lusitania. Under the picture was inscribed, "No murderer's face ever seen in the docks was more typical than this. He looks capable of so dastardly a deed." Vanderbilt's brother, Alfred, was one of the most prominent victims of the disaster.

Sunday was the 79th birthday of Mrs. M. C. Arnold and in the afternoon about forty of her friends called on her at the home of her daughter, Mrs. J. E. Smith, and offered their congratulations. The poor, the sick or the forsaken go to her for sympathy and they never go in vain, she is always ready to help to the extent of her strength and means. Hers is the practical kind of religion that believes in helping less fortunate brothers without first asking what is the cause of his misfortune.

One of those mistakes which seem to be unavoidable crept into the columns of The Times last week. In the account of the resignation of Justice of the Peace W. F. Hemstreet the reporter got his wires crossed and said that the Squire was "going to California for his health, which had not been of the best for some time." All of which is a serious mistake as Squire Hemstreet is one of the best preserved young men of 83 years to be found anywhere and has worked hard for many years and is going to take a well deserved rest. He and Mrs. Hemstreet expect to leave about the first of the month for Corona, California, where they will spend some time with Mr. Hemstreet's son, Frank. From there they will go to Seattle, Washington, for a stay with Mrs. Hemstreet's daughter, Mrs. Mary A. Martin. They expect to be gone about a year.
